

102nd Indian Science Congress

“ Science & Technology for Human Development” 3-7 January , 2015

Department of Physics
(Autonomous)

Science Poster Competition for students

Theme: Landmark Discoveries / Inventions in Science

The 102nd Indian Science Congress is to be held at the University of Mumbai during January 3-7, 2015. As part of their activities during the congress, the Department of Physics (Autonomous) will host a Science Poster Competition for students at undergraduate and post-graduate level. Students may participate in the competition in one of the two categories:

Undergraduate: Students pursuing degree course in Science below 21 years of age

Post Graduate and Research: Students pursuing the master's degree course in science or research in a University or a research institute in the age group 21-30 years of age.

Students are invited to submit a poster to the contest. The posters will be judged based on their content, clarity in design and visual appeal. All posters will be on displayed in the department hallways during the congress.

The posters may be prepared by individual students or in groups not exceeding three members. The theme of the competition must be strictly followed while designing the poster.

The following guidelines are to be followed:

1. A poster should be no larger than 1m x 1m. Posters those are larger or significantly smaller than this size will not be considered.
2. The poster display should include:
Title panel
Author(s)
Departmental affiliation

Submission of soft copy of poster in PDF version containing a short description of the same opens on 1st November, 2014.

Kindly submit your posters to isc2015_physics@mu.ac.in as a pdf file.

Last date for Poster Submission: 30th November 2014
