Respected Sir

Since the establishment of the Department of Biophysics is taking whole heart effort to meet it's the aims and objectives. Innovative practices are applying for teaching, learning and training at Ph. D and PG levels. Most important practices amongst these are Biophysics Journal Club, Seminar by students, scientific quiz (based on curriculum), and Monthly lectures in specialized & advanced areas (invited from Internationally reputed research Institutes, Industries and Universities).

Department of Biophysics has built up a strong collaboration with Research Institutes and Industry. Few of them - Department of Atomic Energy, Board of Nuclear Sciences and Research, Govt of India, Department of Oncology, Dr Balabhai Nanavati Hospital, Advanced Cancer Training and Education Centre, Navi Mumbai, Radiation Medicine Centre, Parel and Dr Kodlikeri Cancer Hospital, Aurangabad.

Past students of the department have been placed in India and abroad in national and international reputed research laboratories as scientist and Ph. D scholar. Few of students have cleared NET/ICMR/CSIR examination.

I am very happy to inform you that Department of Biophysics has received second prize in oral presentation of research work, which was presented at International Interdisciplinary Science Conference on Nanobiotechnology: Physics and Biology Interface, at Jamia Millia University, New Delhi in Dec 2-4, 2010. Ms Jessy Mariam, a Ph.D scholar of the Department has presented the research work.

Further I am to inform you that Ms Jessy Mariam has been awarded INSPIRE fellowship by Department of Science and Technology, New Delhi. The award of fellowship is Rs 12,000/ month and 50,000/- quantingancy grant for five years.

I hope your support and blessing will continue to the Department.

Thanking you with warm regards.

Yours sincerely
Dongre

(P M Dongre)
Head, Department of Biophysics.
