MESSAGE

The Rajiv Gandhi Centre for Contemporary Studies & Research is academically a great initiative bestowed on the University of Mumbai by the Ministry of Human Resource Development, Government of India, New Delhi.

I have no doubt that such an academic endeavour will reach great heights in the near future and bring laurels to the University of Mumbai in near future.

On behalf of the Government of Maharashtra, I assure you of all support and assistance towards this initiative and creating this as a leading Centre of Academic excellence in Contemporary Studies.
