About the Workshop

Career in radiation and cancer research areas has been rewarding and exciting in most of the developed countries. However, in Indian scenario these research careers have not been well recognized in young generation mostly due to lack of awareness. The Workshop (CAREER-RCR), organized under the aegis of SRR, is aimed to educate and create awareness **amongst postgraduate students and young faculties** about emerging research areas in these research areas. The Workshop also aimed to make aware the participants about funding possibilities to build career in radiation and cancer research, expectations of funding agencies while submission of research projects and after obtaining the grant. This Workshop is first in the series, SRR plans to conduct to educate the young generation to choose radiation research as their career.
